

Recharge Nation

Website Development Requirement Document (Version 1.0)

1. Project Overview

Recharge Nation is a premium event management platform designed to promote cultural, educational, entertainment, business, and expo events across India.

The platform will allow visitors to discover events, register as participants, book tickets online, and stay updated with upcoming programs through a seamless and modern digital experience.

The website should deliver a premium user experience inspired by leading event platforms while maintaining its own unique brand identity.

2. Project Objectives

The website aims to:

- Showcase all Recharge Nation events in one platform.
- Allow users to book tickets online.
- Enable participants to register for competitions.
- Promote expos and exhibitions.
- Display sponsors and partners.
- Increase online registrations.
- Automate booking confirmations.
- Build a scalable platform for future growth.

3. Target Audience

Students

Parents

Schools

Colleges

Artists

Musicians

Dancers

Fashion Designers

Food Enthusiasts

Educational Institutions

Businesses

Corporate Companies

Sponsors

Visitors

General Public

4. Event Categories

The platform should support multiple event categories including:

- Cultural Programs
- Dance Competitions

- Singing Competitions
 - Fashion Shows
 - Food Festivals
 - Cooking Competitions
 - Art & Craft
 - Talent Hunt
 - Quiz Competitions
 - Educational Events
 - Workshops
 - Seminars
 - Startup Events
 - Business Networking
 - Trade Expos
 - Product Exhibitions
 - College Festivals
 - School Events
 - Entertainment Shows
-

24. Features Included

- ✓ Premium Responsive Design
 - ✓ Event Management
 - ✓ Upcoming Events
 - ✓ Past Events
 - ✓ Ticket Booking
 - ✓ Participant Registration
 - ✓ User Login & Registration
 - ✓ Email Verification
 - ✓ Booking Confirmation Emails
 - ✓ QR Code Ticket
 - ✓ User Dashboard
 - ✓ Admin Dashboard
 - ✓ Sponsor Management
 - ✓ Gallery Management
 - ✓ Contact Forms
 - ✓ SEO Ready Website
 - ✓ Mobile Responsive
 - ✓ Google Analytics Integration
-

25. Future Enhancements

The platform architecture should support future expansion, including:

- Expo Stall Booking

- Organizer Dashboard
 - Exhibitor Portal
 - Volunteer Management
 - Judge Panel
 - Online Certificate Generation
 - WhatsApp Notifications
 - SMS Notifications
 - Mobile Application
 - AI Chat Assistant
 - Live Event Streaming
 - Multi-language Support
 - Membership Programs
 - Loyalty Rewards
 - Event Reviews & Ratings
 - Digital Networking
-

26. Third-Party Services

To keep the platform efficient and scalable, only essential third-party services will be integrated.

Required integrations include:

- Payment Gateway
- Email (SMTP)
- Google Maps
- Google Analytics

- Meta Pixel

All remaining core modules—including event management, participant registration, ticket booking, QR ticket generation, user management, and admin functionality—should be developed as custom features rather than relying on paid third-party APIs.

27. Deliverables

Fully functional responsive website

Admin Dashboard

Event Management System

Participant Registration System

Booking Confirmation Emails

QR Code Ticket Generation

Basic SEO Setup

Deployment on Production Server

Technical Documentation

Source Code Handover

28. Expected Outcome

Recharge Nation will serve as a centralized digital platform for cultural programs, competitions, educational events, business expos, and entertainment experiences. The website should provide a modern, secure, and scalable foundation that supports online registrations, ticket bookings, and future feature expansion while maintaining a premium user experience.
